Professional Summary

After receiving my Bachelor's Degree from Miami University, I began work at Cincinnati Childrens Hospital as a Behavioral Health Specialist and educator for two years. I then transitioned to Fairfield High School as an Academic Support Tutor while I worked on my certifications in UX/UI R & D. Also in this time, I completed my Google Analytics 4 certification as I hope to move more into the business and marketing side of the workforce.

Experience

ACADEMIC SUPPORT TUTOR

September '21-Present

Fairfield High School - 8880 Holden Blvd., Fairfield, OH 45014

- Support teachers and students in class to create positive learning outcomes guided by social-emotional needs, personal academic achievement goals, Ohio Science Standards, and Common Core Standards.
- Provide administrative support for the lead teacher to increase their productivity and effectiveness during instruction.
- Collaborate with intervention specialists to modify and accommodate instruction for students with 504 and IEP plans in the general education population.
- Assist administration in creating learning material for students in science and math.
- Improving student's time-management skills by developing study plans based on individual needs in their science class.
- Assist students with scheduling to maximize effective content courses to contribute to their GPA, graduation requirements, and personal interests.

BEHAVIORAL HEALTH SPECIALIST

June '19 - September '21

Cincinnati Childrens Hospital - 5642 Hamilton Ave, Cincinnati, OH 45224

- Chosen to be a Therapeutic Crisis Intervention instructor through Cornell University in partnership with CCHMC to lead peers in new hire training.
- Used therapeutic interventions to regulate crises among clients.
- Created Dialectical Behavior Therapy (DBT) groups for clients' individualized therapy and the creation of coping skills.
- Facilitated over 100 successful admissions and discharges in residential care.
- Worked with a multi-disciplinary team to manage patient's individual care plans and map out their care journey.
